EDUCATIONAL INSTITUTION

FLAG CEREMONY

The California Education Code Section 52720 requires daily performance of patriotic exercises in public schools. “In every public secondary school there shall be conducted daily appropriate patriotic exercises. The giving of the Pledge of Allegiance to the Flag of the United States of America shall satisfy such requirement. Such patriotic exercises for secondary schools shall be conducted in accordance with the regulations which shall be adopted by the governing board of the district maintaining the secondary school.”

The schools in the El Monte Union High School District satisfy this requirement by conducting the Pledge of Allegiance to the Flag each day. No one can be coerced into participating in the flag salute if it violates their religious beliefs or expressive rights. Students who do not choose to participate in the flag salute may elect to participate, stand, remain seated or excuse themselves from the classroom during the exercise.

The registration process must begin with all data subject to verification to the satisfaction of the staff of the El Monte Union High School District. By law, any false, incomplete, missing, or misleading information provided in the registration process ends the student’s registration.

COUNSELING SERVICES

The El Monte Union High School District offers a full program of guidance and counseling services to each student throughout his or her high school career. Students and their parents are urged to take advantage of these services.

Students are assigned to a counselor on an alphabetical basis. Except for slight adjustments each year in order to maintain a balance in the counselor-student ratio, a student may look forward to an unbroken relationship with the same counselor for four years.

The range of a counselor’s contacts with his or her counselees is all-inclusive, extending from program changes to personal counseling. In conjunction with the parent and student, the major goals of the counseling program are to:

1. Develop a 4-year plan, including options for CTE or dual enrollment
2. Ensure completion of high school
3. Prepare for post-graduation choices
4. Prepare students for eligibility for entrance into the college/university of his or her choice
5. Assist in the search for scholarships and financial aid
6. Provide guidance in the personal growth and development of the counselee.

Wise decisions made at registration time are of great importance. Once school begins in August, program changes will only be made by counselor recommendation or administrative necessity.

CAREER CENTER

The Career Center is an extension of the counseling program and offers services to aid students in preparing for their future. These services include guidance in the areas of college selection, availability of scholarships, career training, and financial aid. The Career Center houses resource materials on careers, colleges, vocational schools, and the military. The school counselors direct students to this valuable resource.

Assistance from the Career Guidance Coordinator is available in helping students become more aware of their interests, aptitudes, abilities, and values through a series of tests and inventories. This self-knowledge, when applied, becomes significant in determining the high school courses necessary to accomplish future plans.

A structured exposure to the career decision-making process including self-awareness, career exploration, and knowledge of the world of work is offered in specific courses or infused into various classes during the student’s high school career.

Students may register for specific vocational education classes in the career center.

The Career Center makes available guest speakers from many vocational and educational areas and plans career oriented field trips for students. It is open daily from 7:30 a.m. to 3:30 p.m. All students are invited to make educational use of the Career Center’s facilities. The Career Center and the counseling staff are excellent sources of information for college financial aid.

Grade Point Average (GPA)

Each semester course with the exception of Service Learning Assistants and Academic Mentor, when issued a passing grade, grants 5 credits towards the 220 credits required for graduation. Students must meet the prerequisites for each course in which they enroll. Prerequisites may include permission of the teacher or counselor as well as completion of specific courses. Honors courses that are approved by the University of California have the letter “H” and Advanced Placement courses have the letters “AP” after the course title. Grades for Honors (H) or Advanced Placement (AP) courses are as follows for the purposes of computing grade point averages:

Courses are titled AP (Advanced Placement) and H (Honors). Classes must be approved by the University of California on an annual basis. Only 8 units of AP/Honors courses are allowed by UC/CSU. Only 2 of the 8 units can be in the 10th grade year. A unit refers to 1 year of study in high school.

For Advanced Placement courses, this grade point computing system applies only if the student takes the AP exam. For dual enrollment courses, this grade point computing system applies only to core classes taken for dual credit. Otherwise, grade points will be A=4, B=3, C=2. For dual enrollment courses, this grade point computing system applies only to core classes taken for dual credit.

All other high school courses (except Student Learning Assistants and Academic Mentor) will be included in the GPA calculation as follows. This includes Accelerated courses.

Citizenship evaluation is calculated as follows:

In addition, several specific positive and negative comments are available for teachers to include with the grade report. These comments cover work and study habits, attendance, and classroom conduct.
Students should be aware of how GPAs are calculated and make informed class choices based on that knowledge. If in doubt, please contact your counselor or assistant principal for student services.

As a final note, students should also be aware that although GPAs are important for college admission, most colleges include other factors in their analysis of candidates which may include both depth and breadth of high school preparation, community experiences, volunteer involvement, and/or special talents, needs, or interests.

**Assembly Bill 2160 – Cal Grant Opt-Out Form**

An Operations Memo from the California Student Aid Commission (Commission) was received reminding public high schools and charter schools of the requirement to provide an opportunity for 12th grade pupils to opt out of the now mandatory electronic Grade Point Average (GPA) submission to the Commission. For more details, please view GOM 2015-35 on the following link: http://www.csac.ca.gov/secured/operationmemos/om.asp

**Credit for College Courses**

(Education Codes 48800 and 76001)

Students may take college courses while enrolled in high school. Dual credit classes offer student the chance to get college credit for classes at the same time as getting high school credit. Students who participate in these Early College classes complete an enrollment form for the college, and upon completion of the course with a C- or better, will receive college and high school credit for the class. Some college courses will not count towards high school graduation requirements, but will count for elective high school credit and will be included. The college course will not count towards high school graduation requirements, but will count for elective high school credit and will be included in the calculation of the GPAs. The student shall receive the same letter grade for the high school credit as is granted by the college.

The intent of this section is to provide educational enrichment opportunities for eligible pupils, rather than to reduce current course requirements of elementary and secondary schools.

To participate in a college enrollment program or Early College, students must have the permission of the school principal, parent, counselors and college dean.
Alternative Academic Programs

Alternative programs for gifted and high potential students are encouraged in the El Monte Union High School District. These offerings may be in the form of Advanced Placement classes, Honors courses (if approved in advance by the University of California), courses through Rio Hondo Community College, Pasadena City College, or other community colleges, Upward Bound, and a variety of variable credit offerings made available through universities and colleges in the southland.

To participate in these programs, students must have the permission of the school principal, parent, counselor and college dean as appropriate.

THE ADVANCED PLACEMENT® AND HONORS PROGRAMS

The Advanced Placement (AP) Program is based on the fact that many students can complete college-level studies in their secondary schools. Advanced Placement serves three groups: 1) students who wish to pursue college-level studies while still in secondary school, 2) schools that desire to offer these opportunities, and 3) colleges that wish to encourage and recognize such achievement. Advanced Placement provides service by providing descriptions of college-level courses to interested schools and the results of examinations based on these descriptions to the colleges of the student’s choice. Participating colleges, in turn, grant credit and appropriate placement, or one of these, to students who have done well on the examinations. Thus the Advanced Placement Program extends the educational opportunities available to students by effectively relating college-level courses at thousands of schools to appropriate credit and placement at the colleges that the students eventually attend.

Honors classes must be approved in advance by the University of California.

Career Technical Education (CTE) 
And Vocational Education (VE)

WHAT IS CAREER TECHNICAL EDUCATION?
Career Technical Education prepares students for college and career. Student take a sequence of courses, called a Pathway, within one of 15 industry sectors. The introductory courses offer introductions to the career opportunities within the sector, and then intermediate and capstone courses provide specialized training that can help student earn certificates or enter the workforce, or be ready to gain more expertise through a college program.

Vocational Education is a career education system that provides job training programs to help students develop the skills they need for part-time employment, higher-level career technical training programs, or full-time employment after completing high school. Vocational Education is designed to meet the job training needs of the students and employment needs of the school community.

WHO MAY ENROLL?
CTE courses are meant to be taken sequentially, to complete a Pathway within a specific Industry Sector. Students can start taking introductory courses in 9th grade, with the goal of completing at least two courses within the sequence, and preferably three or even four. Vocational Education classes are offered after school and are also available to out-of-school youth and adults. Some classes have specific requirements or prerequisites.

HOW DO YOU ENROLL?
1. Look over the CTE Pathway options or the Vocational Education course selections.
2. See the Vocational Education Technician or the Career Guidance Coordinator in the Career Center on your high school campus.
3. Complete an enrollment form.

REGISTRATION, ENROLLMENT, ATTENDANCE
Most classes are open on a first-come basis to eligible students. Interested individuals should enroll as soon as possible because all classes have established maximum and minimum class sizes. Waiting lists may be maintained when classes are full, and classes may be adjusted, cancelled or merged when there is insufficient enrollment. Regular attendance is required in order to receive credit for a course.

PROGRAM CREDIT & CERTIFICATES OF ACHIEVEMENT
All Vocational Education classes count towards high school graduation requirements. Some classes that have articulation agreements with Rio Hondo receive college credit if the student attends Rio Hondo Community College. Some classes satisfy UC f-g requirements. A certificate of achievement that includes a list of all competencies achieved will be awarded upon successful completion of a program. Students who complete a Pathway (two to four courses) earn College and Career Ready status, one of the indicators that El Monte Union High School District is fulfilling its commitment to the students in this community that they will be ready for college and career when they graduate.

TUITION FEES
Vocational Education programs are free. Most books and materials are provided for student use. Several Vocational Education classes have a strict dress code that must be followed.

HOW DO I GET TO VOCATIONAL EDUCATION CLASSES?
Transportation to and from your school and other sites may be provided. Check with your Vocational Education (ROP) Technician or College and Career Coordinator at your high school for details.

WORK PERMITS
All work permits must be renewed at the beginning of each school year. Students can obtain a work permit application on each school website, at their school site Career Center from the Vocational Education Technician or at the El Monte Union High School District Office (located at 3537 Johnson Avenue in El Monte) from 7:30 a.m. to 4:30 p.m. Completed applications must be submitted to the El Monte Union High School District Office for processing.

Such requests shall be valid for the school year in which they are submitted and may be withdrawn by the parent or guardian at any time. Other activities will be scheduled for students excused from these class sessions.

If you wish your child to receive all the instruction within the courses in which he/she is enrolled, no special communication is required.

Alternative Education Programs

1. **FERNANDO R. LEDESMA**

Fernando R. Ledesma High School is a continuation high school committed to providing its students with an alternative educational program designed to meet the individual needs and academic abilities of students who have not been successful in the program offered on the comprehensive high school campus. Alternative approaches to learning and flexible academic programs are utilized to better serve the special needs of these students. In addition to academics, the school offers extra-curricular activities including student government, co-ed sports, academic decathlon, and dances.

2. **OPPORTUNITY**

The Opportunity Program is for students who are freshmen or sophomores and are of the ages 14-15 who have experienced difficulties at the comprehensive high schools including: habitually truant, failing grades, insubordination and disorderly conduct, and irregular attendance. Students are assigned to this program with the goals of improving attendance, grades, attitude, and self-esteem. Students are returned to the comprehensive high schools as soon as possible. The Opportunity Program curriculum is based on the district’s core curriculum and taught within a self-contained classroom. Coursework is individualized and students work at their own pace. The instructional methodology is a tutorial approach with some group work along with computers and projects to enhance the various subject areas. Students attend school for half of the day five days a week.

3. **INDEPENDENT STUDY**

The primary purpose of the Independent Study Program is to offer a means of individualizing the educational plan for pupils whose needs may best be met outside the regular classroom setting. Independent Study is optional for students. The curriculum is consistent with the school district’s core curriculum. Multiple modes of instruction are utilized including: individual work, labs, oral presentations, discussions, projects, and computer assignments.

4. **COMMUNITY DAY SCHOOL AND MUSTANG SITE**

The Community Day School and Mustang Site are an alternative educational option for students who have been expelled from local districts or have had behavior problems at their high schools. Some students have previously been incarcerated or are in need of a structured environment. Students attend classes all day every day and follow the same curriculum as the comprehensive high schools. The curriculum follows district guidelines. Two instructors provide instruction in all disciplines. In addition, parents/guardians and students must attend counseling classes, and there is random drug testing for the students.

5. **CREDIT RECOVERY**

High school counselors can enroll students into the Credit Recovery Program at the site. Details regarding this instructional option may be secured from the high school counselor. Students exercising this option must meet the graduation requirement format approved for comprehensive day school students and attend a minimum of 240 minutes a day in regular day classes.

1. Students must have earned a “D” or “F” in a course to enroll in the program.
2. Students must have completed a counseling session that involved the pupil, a certificated representative of the high school, and the pupil’s parent or guardian. That session ensures that the student and parent are aware of program requirements.
3. Credit will be granted when all course requirements such as examinations and assignments are completed, and a passing grade is earned.
4. When a course is completed, an official credit slip will be emailed to the counselor and school registrar.

PROHIBITION OF UNLAWFUL HARASSMENT OF STUDENTS

NONDISCRIMINATION/HARASSMENT

The Governing Board desires to provide a safe school environment that allows all students equal access and opportunities in the district’s academic and other educational support programs, services, and activities. The Board prohibits, at any district school or school activity, unlawful discrimination, harassment, intimidation, and bullying of any student based on the student’s actual race, color, ancestry, national origin, ethnic group identification, age, religion, marital or parental status, physical or mental disability, sex, sexual orientation, gender, gender identity, or gender expression; the perception of one or more of such characteristics; or association with a person or group with one or more of these actual or perceived characteristics.

This policy shall apply to all acts related to school activity or to school attendance occurring within a district school. (Education Code 234.1)

Prohibited discrimination, harassment, intimidation, cyber bullying or bullying includes physical, verbal, nonverbal, or written conduct based on one of the categories listed above that is so severe or pervasive that it affects a student’s ability to participate in or benefit from an educational program or activity; creates an intimidating, threatening, hostile, or offensive educational environment; has the effect of substantially or unreasonably interfering with a student’s academic performance; or otherwise adversely affects a student’s educational opportunities.

The Board also prohibits any form of retaliation against any student who files a complaint or report regarding an incident of discrimination, harassment, intimidation, or bullying.

The Superintendent or designee shall facilitate students’ access to the educational program by publicizing the district’s nondiscrimination policy and related complaint procedures to students, parents/guardians, and employees. He/she shall provide training and information on the scope and use of the policy and complaint procedures and take other measures designed to increase the school community's understanding of the requirements of law related to discrimination. The Superintendent or designee shall regularly review the implementation of the district’s nondiscrimination policies and practices and, as necessary, shall take action to remove any identified barrier to student access to or participation in the educational program. He/she shall report his/her findings and recommendations to the Board after each review.

Students who engage in discrimination, harassment, intimidation, bullying, cyber bullying, or retaliation in violation of law, Board policy, or administrative regulation shall be subject to appropriate consequences or discipline. Any employee who permits or engages in prohibited discrimination, harassment, intimidation, bullying, cyber bullying, or retaliation shall be subject to disciplinary action, up to and including dismissal.

The following position is designated Coordinator for Nondiscrimination to handle complaints regarding discrimination, harassment, intimidation, cyber bullying or bullying, and to answer inquiries regarding the district’s nondiscrimination policies:

   Assistant Superintendent of Educational Services
   El Monte Union High School District
   3537 Johnson Avenue
   El Monte, CA 91731
   (626) 444-9005

To prevent discrimination, harassment, intimidation, and bullying of students at district schools or in school activities and to ensure equal access of all students to the educational program, the Superintendent or designee shall implement the following measures:

1. Provide to employees, volunteers, and parents/guardians training and information regarding the district's nondiscrimination policy; what constitutes prohibited discrimination, harassment, intimidation, or bullying; how and to whom a report of an incident should be made; and how to guard against segregating or stereotyping students when providing instruction, guidance, supervision, or other services to them. Such training and information shall include guidelines for addressing issues related to transgender and gender-nonconforming students.

2. Provide to students a handbook that contains age-appropriate information that clearly describes the district's nondiscrimination policy, procedures for filing a complaint, and resources available to students who feel that they have been the victim of any such behavior. (Education Code 234.1)
3. Annually notify all students and parents/guardians of the district's nondiscrimination policy and of the opportunity to inform the Coordinator whenever a student's participation in a sex-segregated school program or activity together with another student of the opposite biological sex would be against the student's religious beliefs and/or practices or a violation of his/her right to privacy. In such a case, the Coordinator shall meet with the student and/or parent/guardian to determine how best to accommodate the student.

4. Publicize the district's nondiscrimination policy and related complaint procedures to students, parents/guardians, employees, volunteers, and the general public and post them on the district's web site and other locations that are easily accessible to students. (Education Code 234.1)

5. When 15 percent or more of a school's students speak a single primary language other than English, translate the nondiscrimination policy, related complaint procedures, and all forms for use in the complaint process into that other language. (Education Code 234.1, 48985)

6. At the beginning of each school year, inform school employees that any employee who witnesses any act of discrimination, harassment, intimidation, cyber bullying or bullying against a student is required to intervene if it is safe to do so. (Education Code 234.1)

Note: Item #7 below is optional and should be revised to reflect district practice. In some situations, the district may need to provide individualized accommodation to a student to protect him/her from harassment or bullying. Each situation will need to be analyzed to determine the most appropriate course of action to meet the needs of the student, based on the circumstances involved.

7. At the beginning of each school year, inform each principal or designee of the district's responsibility to provide appropriate accommodation(s) to protect students’ privacy rights and ensure their safety from threatened or potentially harassing, intimidating, or discriminatory behavior.

Any student who feels that he/she has been subjected to discrimination, harassment, intimidation, cyber bullying or bullying should immediately contact the Coordinator, the principal, or any other staff member. In addition, any student who observes any such incident should report the incident to the Coordinator or principal, whether or not the victim files a complaint.

Any school employee who observes an incident of discrimination, harassment, intimidation, cyber bullying or bullying or to whom such an incident is reported shall immediately report the incident to the Coordinator or principal, whether or not the victim files a complaint.

Upon receiving a complaint of discrimination, harassment, intimidation, cyber bullying or bullying, the Coordinator shall immediately investigate the complaint in accordance with the district's uniform complaint procedures specified in AR 1312.3 - Uniform Complaint Procedures.

Transgender and Gender-Nonconforming Students

Gender identity means a person's gender-related identity, appearance, or behavior, whether or not that gender-related identity, appearance, or behavior is different from that traditionally associated with the person's physiology or assigned sex at birth.

Gender expression means a person's gender-related appearance and behavior, whether or not stereotypically associated with the person's assigned sex at birth. (Education Code 210.7)

Transgender student means a student whose gender identity or gender expression is different from that traditionally associated with the assigned sex at birth.

Gender-nonconforming student means a student whose gender expression differs from stereotypical expectations.

To ensure that transgender and gender-nonconforming students are afforded the same rights, benefits, and protections provided to all students by law and Board policy, the district shall address each situation on a case-by-case basis, in accordance with the following guidelines:

1. Right to privacy: A student's transgender or gender-nonconforming status is his/her private information and the district will only disclose the information to others with the student's prior consent, except when the disclosure is otherwise required by law or is necessary to preserve the student's physical or mental well-being. Any district employee to whom a student discloses his/her transgender or gender-nonconforming status shall seek the student's permission to notify the Coordinator for Nondiscrimination. If the student refuses to give permission, the employee shall keep the student's information confidential, unless he/she is required to disclose or report the student's information pursuant to law or district policy, and shall inform the student that it may be impossible to accommodate the student's needs related to his/her status as a transgender or gender-nonconforming student. If the student permits the employee to notify the Coordinator, the employee shall do so within three school days.
As appropriate, the Coordinator shall discuss with the student any need to disclose the student’s transgender or gender-nonconformity status to his/her parents/guardians and/or others, including other students, teacher(s), or other adults on campus. Any decision to disclose the student's status to others shall be based on the student's best interest.

2. Determining a Student's Gender Identity: The Coordinator shall accept the student’s assertion unless district personnel present a credible basis for believing that the student's assertion is for an improper purpose. In such a case, the Coordinator shall document the improper purpose and, within seven school days of receiving notification of the student's assertion, shall provide a written response to the student and, if appropriate, to his/her parents/guardians.

3. Addressing a Student's Transition Needs: The Coordinator shall arrange a meeting with the student and, if appropriate, his/her parents/guardians to identify potential issues, including transition-related issues, and to develop strategies for addressing them. The meeting shall discuss the transgender or gender-nonconforming student’s rights and how those rights may affect and be affected by the rights of other students and shall address specific subjects related to the student's access to facilities and to academic or educational support programs, services, or activities, including, but not limited to, sports and other competitive endeavors. In addition, the Coordinator shall identify specific school site employee(s) to whom the student may report any problem related to his/her status as a transgender or gender-nonconforming individual, so that prompt action could be taken to address it.

4. Accessibility to Sex-segregated Facilities, Programs, and Activities: The district may maintain sex-segregated facilities, such as restrooms and locker rooms, and sex-segregated programs and activities, such as physical education classes, intermural sports, and interscholastic athletic programs. A student shall be entitled to access facilities and participate in programs and activities consistent with his/her gender identity. In addition, a student shall be permitted to participate in accordance with his/her gender identity in other circumstances where students are separated by gender, such as for class discussions, yearbook pictures, and field trips. However, a student's right to participate in a sex-segregated activity in accordance with his/her gender identity shall not render invalid or inapplicable any other eligibility rule established for participation in the activity.

5. Student Records: A student’s legal name or gender as entered on the mandatory student record required pursuant to 5 CCR 432 shall only be changed pursuant to a court order. However, at the written request of a student or, if appropriate, his/her parents/guardians, the district shall use the student’s preferred name and pronouns consistent with his/her gender identity on all other district-related documents.

6. Names and Pronouns: If a student so chooses, district personnel shall be required to address the student by a name and the pronouns consistent with his/her gender identity, without the necessity of a court order or a change to his/her official district record. However, inadvertent slips or honest mistakes by district personnel in the use of the student’s name and/or consistent pronouns shall not constitute a violation of this administrative regulation or the accompanying district policy.

7. Uniforms/Dress Code: A student has the right to dress in a manner consistent with his/her gender identity, subject to any dress code adopted on a school site.
Suggested Course of Study for High School Graduation

The course of study outlined on this page indicates the specific required subjects offered at each grade level. Each student has the opportunity to supplement these requirements with appropriate electives from the various departmental offerings. These electives should be selected carefully in keeping with a student’s post-graduate college and career plans, including Career Technical Education (CTE) courses leading to a Certificate in CTE pathway.

Freshmen and Sophomores enroll in 6 classes (periods). At sites with traditional class schedules and seven classes (periods) for sites having block schedules. Credits toward graduation are earned at the rate of five (5) per semester for each course completed with a passing grade. A total of 220 credits are required for graduation.

*English taken in another country where it is considered a foreign language will be used for elective credit—not English graduation requirement credit.

**All students must complete, at a minimum, two semesters of physical science and two semesters of life science.

***All students must complete Integrated Math 1 (may be satisfied in 7th or 8th grade).

NOTES:

1. Students must complete all requirements and 220 credits.
2. All 9th and 10th Grade students are required to enroll in six (6) classes per semester with the exception of South El Monte (SEM) and Mountain View (MV), which requires seven (7) classes per semester.
3. Summer School is subject to funding availability.
4. Students must also take ten (10) units of Career Technical Education (CTE) and a course to fulfill the Computer Studies requirement.
5. Students must pass Integrated Math 1.
6. All students must complete, at a minimum, two semesters of life science and two semesters of physical science.
7. The 20 math credits required for graduation must be satisfied by credits in Integrated Math 1 (or equivalent) and higher-level math classes.
8. The various curricula established shall be based upon the educational needs, interest, and capacities of the pupils of the district. The Governing Board expects students to progress through each grade within one school year. To accomplish this expectation, instruction should accommodate the varying interests and growth patterns of individual students and, when needed, includes strategies for addressing academic deficiencies. When a student is identified as being at-risk of becoming credit deficient, the Principal or designee shall so notify the student’s parent/guardians as early as practicable in the school year.

Students shall progress through the grade levels by demonstrating growth in learning and meeting grade-level standards of expected student achievement. Progress toward high school graduation shall be based on the student’s ability to pass the subjects and electives necessary to earn the required number of credits. By graduation the student must also meet the minimum proficiency requirements set by the Board and the State of California. Beginning with the class of 2001 and thereafter, all grade level privileges will be based solely on the grade level of the student. This standing will be determined at the end of summer school for all class privileges. However, class standing for fall registration priority will be determined after the spring grades are issued.

Designation for actual grade level (determined by credits earned):

- 9th grade - up to 49 credits having successfully completed all core requirements
- 10th grade - 50 to 99 credits having successfully completed all core requirements
- 11th grade - 100 to 159 credits having successfully completed all core requirements
- 12th grade - 160 to 220 credits having successfully completed all core requirements

* Core requirements are defined as those classes required for graduation by grade level in the subject areas of English, mathematics, science and social science, in which the student had officially enrolled.

---

1 All ninth and tenth graders are required to have a full day schedule.
High School Fine Arts Requirement

The following classes meet the fine arts requirement of Senate Bill SB1123 for high school graduation. One year of fine arts or foreign language is required.

Rio Hondo College

Rio Hondo College is one of the top community colleges in the state at transferring underrepresented minorities to University of California campuses and was named among the top 25 community colleges for Hispanic students nationwide. The College offers 24 associate degrees for transfer that guarantee admission to California State Universities, a four-year bachelor’s degree in automotive technology, 50 associate degrees, and 60 certificates.

Conveniently located in Whittier near the intersection of the Pomona (60) and San Gabriel River (605) freeways, with panoramic views of the San Gabriel Valley/Los Angeles area, Rio Hondo College served more than 1 million students since it was founded in the early 1960’s.

The College is noted for its Pathway to Law School Program, for its outstanding transfer courses, state-of-the-art career training courses, and for its student-centered services. There is a full range of campus clubs and student government, as well as 14 intercollegiate athletic teams and a wide array of opportunities in the performing arts.

With the permission of your school and your parents, you can enrich your education by taking Rio Hondo College courses while still in high school, and the fees are waived if you have not yet graduated from high school. Graduating high school seniors will find that compared to four-year institutions, the current tuition of $46.00 per unit for California residents, plus some minor additional costs, such as parking, books, and Student Representation Fee, makes Rio Hondo an inexpensive choice for higher education and career success.

The University of California is one of the world's largest and most renowned centers of higher education. The University recognizes and values the intellectual and cultural contributions that result from a diverse student population. It seeks a heterogeneous environment which reflects the rich diversity of the State of California. Without this diversity, the University would lose a great deal of its intellectual vitality, and the quality of its educational experience would be diminished.

The University recognizes its responsibility to develop leadership among low-income and minority groups and has, therefore, established programs which identify promising low-income and underrepresented minority students, and encourages and supports their attendance at the University's campuses. The Educational Opportunity Program (EOP) and Student Affirmative Action (SAA) Program are instrumental in encouraging minority student enrollment at the University.
