Reopening of Schools Plan 2020-21

REOPEN - REIMAGINE

EMUHSD Reopening of Schools Task Force

Version 5.0

April 30, 2021

Message from the Superintendent

In anticipation of the reopening of schools during the 2020-21 school year, we have learned from the many experiences of our school closures last spring. The lessons learned from last spring, along with the guidance and recommendations provided by state and county officials, will help better prepare us for the fall. El Monte Union High School District remains committed to serving the needs of our students, families and staff during these challenging times. Our schools are essential to the communities not only for learning, but for nutrition, safety and social-emotional well being.

As we look to the 2020-21 academic year, we know our families will rely on the experience and expertise of our school community leaders to provide a plan that addresses the needs of all of our students. While there is still uncertainty regarding the COVID-19 pandemic, additional resources will be required to support the safety of our students and staff members when they return to school. Prior to the end of the 2019-20 school year, a District Task Force was created to develop the Reopening of Schools Plan for 2020-21. The team met weekly to share relevant information, review state and county recommendations for schools, and draft a plan centered around five major areas critical to the reopening of schools. I am grateful to the extraordinary representatives from across the District who have volunteered time and expertise to craft this plan. I would like to acknowledge the valuable contributions we received from our team members that include district and school administrators, teachers, classified employees, school counselor representatives, district nurse, union representatives, parents and students.

In a short period of time, our task force has developed a comprehensive plan that supports the District's mission and vision in providing our diverse student population with an environment that is safe, equitable, nurturing, and supportive. The plan also focuses on ensuring our District is prepared and equipped with the necessary resources and personnel to support a healthy and safe environment for both students and staff.

Our task force will plan to continue this work through the summer to support our school communities as they prepare to welcome students, staff and families back – virtually or in-person – this fall. While plans to reopen schools will look different for our schools, our top priorities must be the health and safety of students and staff and we must be guided by directives from our public health officials as we focus on ensuring learning continues.

As a resilient community, we are more successful when we work together. We hope that you can join us in our efforts to provide our students with a positive 2020-21 school year.

Instruction

An instructional plan must include the following:

- 240 minutes per day of teacher/student interaction (live or synchronous)
- Daily teacher-student interaction
- Flexibility to switch between hybrid and distance learning as needed
- Time for adequate cleaning and space for social distancing
- Access for all students to connectivity devices
- Content aligned to grade-level standards, and presentation equivalent to in-person instruction
- Academic and other supports (social-emotional)
- Accommodations for special populations
- Designated and integrated ELD

All Learning Models Must Satisfy Strict Requirements Including Daily Live Interaction

SB 98 defines “distance learning” as “instruction in which the pupil and instructor are in different locations and pupils are under the general supervision of a certificated employee of the local educational agency.” (Ed. Code § 43500.)

SB 98 places a strong emphasis on teacher-student engagement in distance learning. Distance learning must include the following minimum components:

- Access for all pupils to connectivity and devices adequate to participate in the educational program and complete assigned work;
- Content aligned to grade-level standards that is provided at a level of quality and intellectual challenge equivalent to in-person instruction;
- Academic and other supports designed to address the needs of pupils who are performing below grade level, or need support in other areas;
- Special education, related services, and any other services required by a pupil’s individualized education program;
- Designated and integrated instruction in English language development; and
- **Daily live interaction** with certificated employees and peers for purposes of instruction, progress monitoring, and maintaining school connectedness. (Ed. Code, § 43503(b).)

SB 98 also adopts Education Code section 43504, which imposes the following requirements aimed at ensuring that LEAs maintain regular contact with students participating in distance learning. In particular:

- LEAs are required to “document daily participation for each pupil on each school day, in whole or in part, for which distance learning is provided.” Daily participation is defined to include: (1) evidence of participation in online activities (including completing assignments and assessments) or (2) contact between the LEA and the pupil or parent/guardian. Students not engaged in daily participation must be marked absent.
- “Each local educational agency shall ensure that a weekly engagement record is completed for each pupil documenting synchronous or asynchronous instruction for each whole or partial day of distance learning, verifying daily participation, and tracking assignments.”
- “A pupil who does not participate daily in either in-person instruction . . . or distance learning . . . shall be deemed absent.”
- LEAs “shall develop written procedures for tiered reengagement strategies for all pupils who are absent from distance learning for more than three school days or 60 percent of the instructional days in a school week. These procedures shall include, but are not limited to, verification of current contact information for each enrolled pupil, daily notification to parents or guardians of absences, a plan for outreach from the school to determine pupil needs including connection with health and social services as necessary, and, when feasible, transitioning the pupil to full-time in-person instruction.

Summary of In-Person and Virtual Learning

Hybrid A/B and Virtual Summer School Classes:

- In our 2021 Summer School Hybrid A/B Model, every student attends the class synchronously (In-Person & Virtually). This model will provide for half the students to be in class physically and the other half of the students be present in the class virtually (Technology is available to implement this model).

2021 Summer School Split Hybrid A/B Model:

- Hybrid A Group meets In-Person Monday and Wednesday
- Hybrid B Group meets In-Person Tuesday and Thursday
- Friday will be Virtual Learning Day for all students (Staff on campus)

Extended Student Support

Students will be provided with *Extended Student Support* time before and after each school day. The following are some of the support activities to be offered during this time.

- Instructional Support for students by teachers

- Social Emotional Learning and Social Emotional Support
- Wellness Center Services
- Tutoring On Demand for all classes being offered
- Other programs are currently being developed through the Educational Services Department

Proposed Instruction Plan for Spring Semester 2021: Two Term Semester (Spring 1 and Spring 2)

- ***Fall 1: 9 Weeks Fall 2: 8 Weeks***
- ***3 Classes Offered for Each Term***
- ***Adaptable to Hybrid or Distance Learning Model***

EMUHSD Distance Learning Instructional Schedule (Monday – Friday Schedule)

Approved by the EMUHSD Board of Trustees on Dec. 9, 2020. The Board approved to continue with Distance Learning through the end of Term 3, Spring 2021, with reconsideration in February 2021 to determine instructional plan for Term 4, Spring 2021.

Online Distance Learning Model

Under the recommended **Online Distance Learning Model**, our students will be provided daily online live (synchronous) instruction for 4 hours each day during the three class schedule. Students will report to their classes online at scheduled times. All students in the class will participate in learning on a daily basis.

Example Daily Student Online Schedule:

Monday:	Tutoring	Opportunity for online tutoring	7:50 - 9:00
	1st Period:	Students will log into their class	9:00 - 10:20
	2nd Period:	Students will log into their class	10:30 - 11:50
	Lunch	Students will take a lunch break	11:50 - 12:30
	3rd Period:	Students will log into their class	12:30 - 1:50
	Tutoring	Additional online tutoring available	1:50 - 5:00

EMUHSD’s Online Learning Model will keep students engaged so they can learn and grow, while also affording them with meaningful opportunities for connecting with their peers. EMUHSD is committed to keeping our students, families, and staff connected to the EMUHSD community during this challenging time by supporting continuous online instruction, providing each student with equitable access to online learning, ensuring students have continued access to mental health resources, and providing best practices and resources to our teachers.

Goals of our Online Distance Learning Model:

- Continue to support teaching and learning through a variety of digital and non-digital materials and instructional activities to maintain continuity of academic rigor while schools are closed due to the current state of emergency.

- Committed to providing students with the necessary technology to participate in their online instruction.
- Ensure students have continuous access to mental health resources
- Provide training for implementing best practices and resources to teachers

Hybrid Learning Model

Under the recommended Hybrid Learning Model students would be separated into two cohorts, Groups A and B, with school days alternating between A and B days. Group A students would attend school in person on Tuesdays and Thursdays while Group B students participate from home. This would be reversed on B days, when Group B students would attend school in person on Wednesdays and Fridays. In turn, Group A students would utilize distance learning on those days. On Mondays, only district employees would remain on campus and all students would participate in periods 1-3 via distance learning. This model allows for recommended appropriate social distancing practices by minimizing the number of students on campus at any one time. In this model, teacher planning is provided from 1:50 - 2:50 p.m. daily, and collaboration and professional development is available daily from 7:50 - 9:00 a.m.. This also provides time for students to complete assignments, receive intervention support, and check in with teachers and peers to maintain connectedness with the school.

In this calendar, while all students are engaged in distance learning activities on Monday, this will:

- Provide custodians with additional opportunities for necessary cleaning and disinfecting for the upcoming week;
- Create flexibility in scheduling for schools to provide targeted tutoring and academic supports for students with the greatest need; and
- Ensure that teachers have the time they need for planning, collaboration, and professional development

Professional Development Plan

Back to School requires training for teachers and transition activities for students. Teachers and Instructional Coaches, in partnership with TOSAs, APs and Principals, continue to provide training and facilitation protocols to support both student transition and teacher professional development. Ongoing professional development topics may include, but are not limited to,

- I. Technology
 - A. PolyStudio Cameras
 - B. Google (Meet, Classroom, other features)
 - C. Software or apps (e.g., Nearpod)
 - D. New SIS (Synergy)

- II. Classroom Culture/Community
 - A. Class contracts
 - B. SEL strategies and supports
 - C. Progressive discipline and classroom management
 - D. Grading practices
 - E. Growth Mindset
- III. Academic Instruction
 - A. Best first instruction practices
 - B. Curriculum training
 - C. Lesson planning
 - D. Integrated ELD
 - E. Formative assessments

Additional Resources Available for Spring 2021 - Term 1

- IM1 and IM2 teachers collaborated to restructure the pacing plan into three units addressing key skills; each unit has regular skill checks, quizzes, and assessments, and utilizes a variety of instructional technologies (Desmos, Delta Math, Algebra Tiles, Peardeck, Nearpod, and more).
- All ELA teachers were provided with ongoing training of a pilot digital curriculum giving more online access to scaffolded lessons.
- Science TOSA partners with teachers to co-teach, design NGSS-aligned lessons, and provide PD on software, apps, curriculum, and strategies.
- Ethnic Studies teachers meet regularly as a professional learning community to revise and perfect the course outline and supplemental curriculum resources.
- A focus group of teachers from diverse content areas will meet weekly as a roundtable to share strategies and practices that may be replicated by others.
- Two assessment windows (weeks 3-4 and weeks 6-7) for ELA and Math will assess skill gaps so teachers can create an instructional action plan.
- The CARES dashboard identifies students in danger of failing for targeted intervention

Safety and Health

The Safety and Health Sub Committee has met several dozen times. In our Sub Committee, we have, at various times broken into various ad hoc committees of the sub committees. We have reached out to other members of the district and sought specialized insight. Also, we have looked to make sure HIPAA, CDC, LADPH and partner agencies guidelines are being followed. Additionally, many of us have added to the document on our own.

There are 14 Major Recommendations:

They are tied into and support Los Angeles Department of Public Health's "check list". We've color-coded this checklist to coordinate and show which of the 14 Major Recommendations they are supported by.

- (1) Workplace policies and practices to protect employee and student health
- (2) Measures to ensure physical distancing
- (3) Measures to ensure infection control
- (4) Communication with employees, students and families of students and the public
- (5) Measures to ensure equitable access to critical services.

These five key areas must be addressed as your facility develops any reopening protocols.

The 14 Major Recommendations:

1. Supplies 1) Workplace policies and practices to protect employee and student health (4) Communication with employees, students and families of students and the public
2. Notify Stakeholders of Contact or Exposure 1) Workplace policies and practices to protect employee and student health

Alternatively, stagger use, properly space occupants and disinfect in between uses. ● Consider use of non-classroom space for instruction, including regular use of outdoor space, weather permitting. For example, consider part- day instruction outside. ● Minimize congregate movement through hallways as much as practicable. For example, establish more ways to enter and exit a campus, create staggered passing times when necessary or when students cannot stay in one room and create guidelines on the floor that students can follow to enable physical distancing while passing. Consideration for Special Populations- Homeless Youth	<ul style="list-style-type: none"> • Re-issue their School Housing Questionnaire (SHQ) posted by CDE here: This helps with the identification process for identifying students experiencing homelessness. There is a concern that many more students and families may have fallen into homelessness due to a high job loss, furloughs, and reduction in hours. • Additionally, as students start reconnecting back to school, it is going to be important to check in with students that are not returning. It is important to determine why these students are not returning. Many of these students may have been displaced due to economic hardships which may have caused a family to become homeless. • Districts have been working hard to distribute technology to their students, despite this fact many homeless families may still not have the technological devices 	<p><u>LACOE- homelessness and mental health</u></p> <p><u>The National Center for Homeless Education</u> provides a wealth of resources around trauma-informed practices and support</p> <p>The National Child Traumatic Stress Network (NCTSN) has created a Toolkit for Educators on trauma and stress. Working with students and their families to ensure SOO rights are enforced is important not only for maintaining stability but also because of a change in school at this time may require complex decisions to be made such as having to figure out how to enroll and having to obtain new technological devices from a new school district. • Ensure monitoring for AB1806 (EC51225.1) – if students are enrolling into your high school after the 10th grade and are homeless, ensure to check for eligibility for AB1806. • Updating and maintaining resources lists for students experiencing homelessness will be important. • Ensure technology needs are met - maintaining/ supporting

Family & Community Engagement

Ensuring all students, staff & community members remain healthy and safe by following best practices in the areas of:

- Ensuring effective communication systems
- Engaging stakeholders
- Utilizing community partnerships
- Other key systems and supports

Guiding Principles:

- *Keeping Students and Staff Safe and Healthy*
- *Ensuring Access and Equity*
- *Engaging Bargaining Units in the Process*
- *Communicating with ALL Stakeholders Throughout the Process*
- *Flexibility to meet the needs and advocate for ALL students in Los Angeles County*

Engagement and Supports for Families of Students with Vulnerabilities (All Students)

Best Practices

- All sites will identify safety, social, emotional, and health needs of all students and create strategies to meet them.
 - Include students not included in Special Education but may have an underlying condition.
- All Sites will practice a uniformed safety procedure districtwide.
- All parents will be given the [CDC/ LA County Department of Public Health guidelines](#) regarding students staying home when they are sick
- Sites will have an [up-to-date resource list](#) available for all office clerks to help field calls
- All school websites and district [website will have updated resources](#) for families
- At the onset of school, sites will clearly communicate educational goals and academic schedules with parents in addition to ensuring the Teacher-Student Engagement hours are communicated as ways to receive additional help and instruction daily

Multi-faceted Communications – methods through different platforms of communication

Best Practices

- Create a system to survey families to provide informed feedback for decision making
- Establish current newsletter/[informational site](#) that provides:
 - Assurance of safety
 - Transparent to build trust and allow families the opportunity to make informed decisions – provide point-of-contact for parents
 - Collaboration/Conference (LCAP, DELAC, etc., other leadership engagement opportunities)
 - Procedures and Protocols (Hygiene)
 - Daily Educational Support for Child’s Home-based Education/Learning Expectations
 - Teacher and Staff Health and Safety
 - Consistency of communication

 - Campaigns promoting all mental health services - based on Panorama data
- Disaster Preparedness team at each site to distribute policies and protocols for hygiene/temp checks - information given to teachers. Teachers distribute to students via google classroom
- Train parents on
 - Blackboard and Remind App
 - SchoolLoop
 - School and District Websites
 - Social Media (Facebook and Instagram) - more done on social media (partner with school ASB accounts)
 - Superintendent’s memo
 - Create and use of Email - more support in getting 100% parents signed up

Additions made upon reflection of first month of school

Top 3 Areas (progress):

1. Communication with community - websites updated, emails, phone messages, more info in primary languages, parent forum, community forum
2. Collaborative Support structures - consistent support to all students and parents, more support from more places
3. Adjusting to parents needs - listening to parent feedback (phone calls), parent evaluations on trainings; asked and received parent feedback

Being Proactive within a Reactive Environment

Best Practices

Creating a cultural norm of trust between students/parents and the district - Awareness of health and safety - Be safe to keep your friends/neighbor healthy

- Establish an Information Committee
- Staff check-in with families the first week of school; after week three, etc.
- Continue to solicit parent input through quarterly surveys
- Continue to provide community forums
- Continue to provide parent engagement opportunities that address the needs that have been identified by parents on surveys, but also bring in anything new that needs to be presented as quickly as possible
- Communications Campaign (Staying Current and Being Updated with the Latest Information)
- Provide a **uniformed/aligned message** despite different messages from various government agencies

- poster campaign -
 - “I trust you to *wash your hands*”
 - “I trust you to *stay home when your sick*”
 - “I trust you to *follow CDC guidelines*”
 - “I trust you to *wear a mask*”
 - “I trust you to *not share food*”
- Use attendance clerk and community liaisons to call families to promote surveys ***and*** ask what support they need **(use a prewritten script/menu for possible trainings)**
- Start by identifying who can support at each site with phone calls, prep resources **(identifying teams)**
- Compile work that has already been done - tutorials, how-tos, etc
- Embracing diversity with multiple celebrations throughout the year to highlight the students and community within EMUHSD
- Incorporating Renewal Week to promote and support mental health awareness and student wellness
- Providing vaccinations to the community on our campuses (SEMHS April 24th and MVHS May 1st)

Definitions

Synchronous Instruction:

- 240 minutes per week of synchronous (live or live-streaming) student-teacher interaction (**three, 80-minute sessions**)
- Daily check-ins with students during office hours to provide feedback and interventions as needed
- Additional asynchronous activities for students, possibly including
 - o Student collaborative projects
 - o Labs
 - o Sharing presentations
 - o Other as needed
- Administer formative and benchmark assessments
- Teachers establish minimum expectations that may include:

- Lesson plans that show
 - 5Es
 - Asynchronous collaborative activities
 - Asynchronous independent activities
 - Student interaction expectations
 - Time management
- Benchmark assessments and common formative assessment schedules
- Grading policies
- Regular feedback schedules
- Communication protocols with parents

Conference period: Teacher prep time, office hours

Collaboration time allows teachers to:

- Reframe content delivery to meet pacing plan goals (**one unit or week at a time**)
 - Develop synchronous vs. asynchronous activities
 - Evaluate student participation expectations and accountability
 - Define student mastery (grading policies)
 - Have ongoing discussion regarding grading practices
 - Participation grades
 - Skills and content that need to be mastered
 - Establish consequences for student non-participation
 - Use feedback from assessments to determine and plan interventions
 - Communicate concerns to counselors and families
 - Build formative assessments and benchmarks (weekly, quarterly, end of semester)
 - Fill out lesson plan templates to include
 - Materials
 - Engagement strategies
 - Formative assessment
 - Time management
 - Feedback protocols

Personalized Professional Learning:

Combination of teacher-driven and district-led.

Possible topics include

- How to use new apps, programs, software, resources (differentiated by teacher skill levels)
- Designing asynchronous activities

- Embedding scaffolds and Tier 1 supports for intervention
- Supports for ELs, special populations
- Social-emotional supports, Restorative Practices
- Instructional support
 - Engagement strategies
 - Time management
 - Lesson design and delivery
 - Workshops for parents for how to support students at home

Transportation Planning framework for 2020-2021 - Guidelines

District vehicle seating capacity based on CDC guidelines. 6' apart (diagonally)

- Ten (7) Passenger Van. Seating capacity **1** student
- Eight (24) Passenger School bus. Seating capacity **4** students

Transportation drivers

- 8 School bus drivers
- 2 car/van drivers

Keeping students safe on their morning bus ride during COVID-19 pandemics is top priority on our list. The challenge is making sure students adhere to current recommended CDS and La County guidelines. Under the current guidelines of six feet of social distancing, the district would have one student per seat every other row in a school bus. This means a bus that normally fits 12-16 high school students would only be able to accommodate 4 students

Therefore, our district, composed of 10 drivers may transport up to 34 students at one time for Special Ed home to school. Due to limited seating, buses will make multiple trips (if necessary) for the same route. The school drop of times, pending on bell times, and time allowed between drop off and staff availability to receive students.

Procedure prior to boarding the bus.

School bus drivers and staff will receive training specifically on Special Considerations for Infection Control during COVID-19.

Drivers received their route assignments with assign seating for each student, and daily precautions will be practiced every morning and afternoon while transporting during the school year.

Drivers will be required to wear face covering while transporting students at all times as well as clean and disinfect all seats and surfaces, including surfaces in the driver cockpit commonly touched by the driver at the completion of the route and in between drop of for every site.

Each bus will be thoroughly cleaned after each bus trip, particularly high-touch surfaces such as bus seats, steering wheel, knobs, windows and door handles. During cleaning, our staff will opens the windows to allow for additional ventilation and allow airflow during this time, which is helpful in litigating COVID-19 spread.

When board and de-boarding the bus, each student must be accompanied by a parent or guardian wearing face covering. Transportation staff assess each student individually at the bus stop by taking each student's temperature. If the student's temperature is below 99.9 degrees, he may board the bus, is required to use hand sanitizer provided on the bus, and sit at his designated seat. Students with a temperature greater than 99.9 will not permitted to enter the bus.

Buses will be marked/tags and students be assigned seating. Drivers will load from the back to the front on each bus, so they do not have to walk past each other. Unloading will be made from front to rear.

Prior to boarding, a sign will be posted asking students the general COVID-19 questions (drivers will read out the question). If the students says "Yes" to any of the questions, the student will not board the bus and the transportation department will contact the parent.

The guidelines also state that students wear the necessary personal protective equipment such as masks. Gloves may be necessary for drivers.

Students must wear a facial covering prior to entering the bus. Acceptable, reusable face covering options include:

- Bandana
- Neck gaiter
- Homemade face covering
- Scarf
- Tightly woven fabric, such as cotton t-shirts and some types of towels

Masks will be available to student not possession.

TRANSPORTATION OF STUDENTS -

Students with Chronic health conditions (as stated by CDC) and who are at greater risk should continue distance learning, if possible (depending on IEP)

Recommendations - Hand sanitizer station for school bus drivers and students. All bus occupants should be encouraged to utilize the sanitizer station upon entry and again upon exiting the vehicle.

Post – Proper method to protect other when coughing or sneezing on the school bus.

EL MONTE UNION HIGH SCHOOL DISTRICT BOARD POLICY 1330

Use of School Facilities

The Governing Board believes that school facilities and grounds are a vital community resource which should be used to foster community involvement and development. Therefore, the Board authorizes the use of school facilities by district residents and community groups for purposes specified in the Civic Center Act, to the extent that such use does not interfere with school activities or other school-related uses. (*cf. 6145.5 - Student Organizations and Equal Access*)

School-related activities shall have priority in the use of facilities and grounds. Other uses authorized under the Civic Act shall be on a first-come, first-served basis.

As necessary to ensure efficient use of school facilities, the Superintendent or designee may, with the Board's approval, enter into an agreement for the joint use of any school facilities or grounds. The Board shall approve any such agreement only if it determines that it is in the best interest of the district and the community. (*cf. 1330.1 - Joint Use Agreements*)

Subject to prior approval by the Board, the Superintendent or designee may grant the use of school facilities on those days on which the school is closed. (*Education Code 37220*)
(*cf. 6115 - Ceremonies and Observances*)

For the effective management and control of the school facilities and grounds, the Superintendent or designee shall maintain procedures and regulations that: (*Education Code 38133*)

1. Aid, encourage, and assist groups desiring to use school facilities for approved activities
2. Preserve order in school buildings and on school grounds and protect school facilities, designating a person to supervise this task, if necessary

(*cf. 0450 - Comprehensive School Safety Plan*)

(*cf. 3516 - Emergencies and Disaster Preparedness Plan*)

3. Ensure that the use of school facilities or grounds is not inconsistent with their use for school purposes and does not interfere with the regular conduct of school work

There shall be no advertising on school facilities and grounds except as allowed by district policy specified in BP 1325 - Advertising and Promotion.

(*cf. 1325 - Advertising and Promotion*)

Fees

The Board authorizes the use of school facilities or grounds by nonprofit organizations, clubs or associations organized to promote youth and school activities. In accordance with Education Code 38134(a), these groups include, but are not limited to, Girl Scouts, Boy Scouts, Camp Fire USA, YMCA, parent-teacher associations, and school-community advisory councils. Other groups that request the use of school facilities under the Civic Center Act, including nonprofit groups not organized to promote youth and school activities or for-profit groups shall be charged an amount including utility costs. Both groups shall be charged fair rental value when using school facilities or grounds for entertainment or meetings where admission is charged or contributions solicited and net receipts are not to be expended for charitable purposes or for the welfare of the district's students. (*Education Code 38134*)

EL MONTE UNION HIGH SCHOOL DISTRICT ADMINISTRATIVE REGULATION 1330

Application for Use of Facilities

Any person applying for the use of school facilities or grounds on behalf of any society, group, or organization shall present written authorization from the group or organization to make the application.

Persons or organizations applying for the use of school facilities or grounds shall submit a facilities use statement indicating that they uphold the state and federal constitutions and do not intend to use school premises or facilities to commit unlawful acts.

Civic Center Use

Subject to district policies and regulations, school facilities and grounds shall be available to citizens and community groups as a civic center for the following purposes: (Education Code 38131, 38132)

1. Public, literary, scientific, recreational, educational or public agency meetings
2. The discussion of matters of general or public interest
3. The conduct of religious services for temporary or long term periods, on a year to year renewable basis, by any church or religious organization
4. Child care programs to provide supervision and activities for children of preschool and elementary school age
(*cf. 5148 - Child Care and Development*)
(*cf. 5148.2 - Before/After School Programs*)
(*cf. 6300 - Preschool/Early Childhood Education*)
5. The administration of examinations for the selection of personnel or the instruction of precinct board members by public agencies
6. Supervised recreational activities, including, but not limited to, sports league activities that are arranged for and supervised by entities, including religious organizations or churches, and in which youths may participate regardless of religious belief or denomination
7. A community youth center
(*cf. 1020 - Youth Services*)
8. Mass care and welfare shelters during disasters or other emergencies affecting the public health and welfare

A veterans' organization means the American Legion, Veterans of Foreign Wars, Disabled American Veterans, United Spanish War Veterans, Grand Army of the Republic, or other duly recognized organization of honorably discharged soldiers, sailors, or marines of the United States, or any of their territories. (Military and Veterans Code 1800)

10. Other purposes deemed appropriate by the Governing Board

The district may grant the use of school facilities on those days on which the public school is closed.

Restrictions

School facilities or grounds shall not be used for any of the following activities:

1. Any use by an individual or group for the commission of any crime or any act prohibited by law
2. Any use which is inconsistent with the use of the school facility for school purposes or which interferes with the regular conduct of school or school work
3. Any use which involves the possession, consumption, or sale of alcoholic beverages or any restricted substances, including tobacco
(*cf. 3513.3 - Tobacco-Free Schools*)
3. Any individual or organization that has utilized the facility in the past and has a current remaining balance.

The district may exclude certain school facilities from non-school use for safety or security reasons.

Damage and Liability

Groups, organizations, or persons using school facilities or grounds shall be liable for any property damages caused by the activity. The district may charge the amount necessary to repair the damages and may deny the group further use of school facilities or grounds. (*Education Code 38134*)

Any group or organization using school facilities or grounds shall be liable for any injuries resulting from its negligence during the use of district facilities or grounds. The group shall bear the cost of insuring against this risk and defending itself against claims arising from this risk. (*Education Code 38134*)

Groups or organizations shall provide the district with evidence of insurance against claims arising out of the group's own negligence when using school facilities. (*Education Code 38134*)

As permitted, the Superintendent or designee may require a hold harmless agreement and indemnification when warranted by the type of activity or the specific facility being used.
